DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Needham James Boddie, II (Ph. 919-854-1400) on June 5th, 2007.

The application has been amended as follows:

In the Title

The title has been changed to read as follows:

--Methods of updating auction information maintained at an intermediary web site--

In the Claims

In claim 1, line 3: Add the word --updated-- before the word "information."

In claim 4, line 4: Add the word --updated-- before the word "information."

In claim 6, line 3: Add the word --updated-- before the word "information."

Cancel claims 54-58.

Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

Referring to independent claims 1, 4 and 6.

Claims 1, 4 and 6 disclose a method of updating information maintained at an intermediary web site on a computer network about items being auctioned at a plurality of remotely located auction sites on the computer network, wherein the updated information is displayable to users accessing the intermediary web site via the computer network.

The most remarkable prior art of record is to Srinivasan (U.S. Patent No. 7,047,210). Srinivasan teaches a method for auctioning a product on a computer network utilizing an auction site computer having an auction site and a scan site computer having a scan site. In particular, Srinivasan states that the scan site (the identified "intermediary web site") may notify a buyer using electronic mail upon determining that a product that closely matches a desired product has been put up for auction (Srinivasan: column 3, line 65 to column 4, line 18). This e-mail notification does not clearly anticipate or reasonable teach a method, wherein the updated information is displayable to users accessing the intermediary web site. Moreover, it is observed that no other portion of Srinivasan, nor any other reference of record, either alone or in combination with any other reference of record cures this deficiency.

Art Unit: 3625

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER COMMENTS

In view of Applicant's Brief on Appeal under 37 C.F.R. 41.37 submitted on 3/26/2007 and the attached Examiner's Amendment, the finality of the rejection of the last Office action is withdrawn, and the claims have been determined to be allowable.
